## › Kant in Progress

In recent years, students of Kantian ethics have been moving beyond the traditional rigorism and formalism of the „Groundwork“ to the more applied – and perhaps more nuanced – picture we find in Kant’s writings on moral theory and religion in the 1790s.

This tendency is reflected in the topics of this graduate workshop, ranging from Kant’s theory of moral consciousness and his conception of honour to his views on sexual desire and evil.
