

Vortragende

Dr. Henning Priepke
Boehringer Ingelheim

Present position: Senior Principal Scientist
Research interests: medicinal chemistry in the areas of cardiovascular and CNS diseases, efficient synthesis of heterocycles

Professor Dr. Stefan Buchholz
Evonik Industries AG

Present position: Vice President, Innovation Management, Advanced Intermediates, Evonik Industries AG
Research interests: large scale catalytic processes – hydroformylation, oligomerisation, etherification, hydrogen peroxide based oxidation processes

Dr. Johannes Panter
Symrise AG

Present position: Director Technology Scouting, Scent&Care Innovations

Forschungsschwerpunkt: Neue Duftstoff-Moleküle und Optimierung von Prozeß-Technologien

Prof. Dr. Joachim Mittendorf
Bayer HealthCare AG

Present position: Director, Medicinal Chemistry Wuppertal, Honorarprofessor University Leipzig
Research interests: Medicinal Chemistry

Professor Dr. Klaus Ditrich
BASF SE Ludwigshafen

Present position: Principal Scientist, Fine Chemicals and Biocatalysis Research, Ludwigshafen
Research interests: enantioselective reactions, biocatalysis, process development for large scale productions of chiral intermediates

Dr. Andrew Plant
Syngenta

Present position: Head Chemistry, Crop Protection Research & Development, Stein, Switzerland

Research interests: The chemistry of crop protection and crop enhancement

Forschung der Chemischen Industrie

Industry Research - Introduced to You.

19. April 2012

Hörsaalgebäude der Chemischen Institute
der WWU Münster

13:00 Uhr Dr. Henning Priepke Boehringer Ingelheim
Neue Wege zur Thrombosebehandlung: Rationales Design von Inhibitoren der Blutgerinnungskaskade

Prof. Dr. Stefan Buchholz Evonik Industries AG
Katalyseforschung @ Evonik

Dr. Johannes Panter Symrise AG
Historisches und Aktuelles aus der Welt der Duftstoffe

PhD Postervorträge WWU Münster
Ausgewählte Beiträge aktueller Forschungsprojekte

15:15 Uhr Postersession
Kaffeepause, Diskussion, Snacks

16:30 Uhr Prof. Dr. Joachim Mittendorf Bayer HealthCare
Discovery of Riociguat - A Potent, Oral Stimulator of Soluble Guanylate Cyclase for the Treatment of Pulmonary Hypertension

Prof. Dr. Klaus Ditrich BASF SE
ChiPros - Optically Active Intermediates on a Commercial Scale

Dr. Andrew Plant Syngenta
Synthesis of α -Fluorosulfone Herbicides

anschl. Sektempfang

syngenta

symrise
always inspiring more...
