

2nd POLISH-GERMAN WORKSHOP ON THE OPTICAL PROPERTIES OF NANOSTRUCTURES

Münster, 14-16 March 2012

Purpose

Exchange of ideas related to theoretical and experimental work in the field of optical properties of nanostructures and other solid state systems.

Date and venue

The workshop will take place at the **Stadthotel** in Münster on **14-16 March 2012**.

Invited Speakers (confirmed)

Martin Axt, Universität Bayreuth

Manfred Bayer, Technische Universität Dortmund

Markus Betz, Technische Universität Dortmund

Rudolf Bratschitsch, Technische Universität Chemnitz

Łukasz Cywiński, Instytut Fizyki PAN, Warszawa

Irene D'Amico, University of York

Włodzimierz Jaskólski, Uniwersytet Mikołaja Kopernika, Toruń

Andreas Knorr, Technische Universität Berlin

Tobias Korn, Universität Regensburg

Piotr Kossacki, Uniwersytet Warszawski

Grzegorz Sęk, Politechnika Wrocławska

Bartłomiej Szafran, Akademia Górniczo-Hutnicza, Kraków

Elżbieta Zipper, Uniwersytet Śląski, Katowice

Artur Zrenner, Universität Paderborn

Registration and Fees

Participation in the Workshop is by invitation/recommendation only. The conference fee is 120 €, which includes lunches and coffee breaks from Wednesday till Friday. Depending on the availability of funding the conference fee may be waived for selected participants.

Chairpersons

Tilman Kuhn

Paweł Machnikowski

Local Organizing Committee

Doris Reiter

Tilman Kuhn

Funding

Collaboration grant between the research groups at University of Münster (**Prof. Tilman Kuhn**) and Wrocław University of Technology (**Prof. Paweł Machnikowski**), funded by the **Alexander von Humboldt Foundation**.

Alexander von Humboldt
Stiftung/Foundation

Supplementary funding:
Institute of Solid State Theory, University of Münster
