An event hosted by the Cluster of Excellence “Religion and Politics in Modern and Pre-Modern Cultures” of WWU Münster. The research association is formed by over 200 academics from 20 humanistic and socio-scientific disciplines and from eleven countries. They investigate the complex relationship of religion and politics from Antiquity to the present and from Latin America and Europe to the Arab and the Asian World. It is nationally the largest research association of its kind and of the 37 Clusters of Excellence in Germany, it is the only one to deal with religions.

The federal government and the federal states fund the project in the Excellence Initiative context with 37 million Euros until 2012.

Conference of the Cluster of Excellence „Religion and Politics“

> Greek Federal States and their Sanctuaries Identity and Integration

17.06. to 20.06.2010

> Greek Federal States and their Sanctuaries. Identity and Integration

Sanctuaries played an important role in the religious as well as in the political life of Greek federal states. They were an important factor of integration and functioned as places where a comprehensive level of identity beyond the individual poleis was developed. The aim of the conference is an analysis of the interdependency between religion and politics under the specific conditions of the Greek federal states.
