UCSB International Programs

Undergraduate Pathway Program

This step-by-step pathway program is designed to prepare high school graduates to seek admission to a US research university. As a defined pathway, it provides students with the preparation for succeeding in top U.S. universities.

Curriculum

Students begin at UCSB with an intensive 6-week English language training in summer, followed by a full year of college level academic studies. At the end of three quarters at UCSB, students will have accumulated 28 transferable quarter units. Students will then transfer to Santa Barbara City College (SBCC) where they will complete the remaining 63 transferable quarter units (42 semester units) required for admission into a University of California campus via the TAG (Transfer Admission Guaranteed) program. Undergraduate admission into the University of California is guaranteed provided that students successfully complete all the requirements of TAG.

6

weeks of summer Intensive English Language Training at UCSB that prepares you for academic success

3

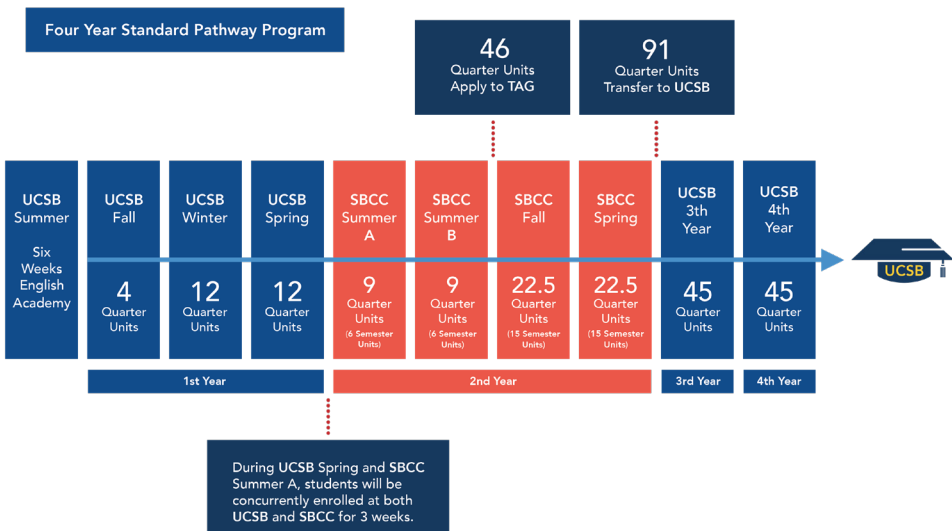

quarters of General Education courses & academic preparation courses

28

transferable quarter units from UCSB that count towards your UC admission application

Guaranteed

university admission after successfully completing the remaining TAG requirements.

UCSB International Programs

Visiting Scholars Program

Research principles of successful teaching, learning and assessment in higher education. The program will encourage scholars to reflect on the knowledge gained, apply it to their own teaching.

Program Options

Program duration available for one, two, three quarters, or a full year. We offer two different options for participation in the Visiting Scholars Program:

Visiting Scholars Program

This option includes the teaching certificate seminars only

Visiting Scholars Program: Enhanced

This option includes the following per quarter:

- Teaching Certificate seminars
- Academic Course Enrollment
- English Language course enrollment
- Faculty coordination

Summer Short-Term Visiting Scholars Program

This two-week program will entail teaching seminars, and language enrichment classes. Seminar teaching topics include Technology In Education, as well as Instructional Design & Teaching in English. For language coursework, participants will be grouped with fellow scholars based on their English capabilities.

UCSB International Programs

Customized International Programs

Physics Camp

International students in the Physics field attend seminars from UCSB Physics department faculty, tutorials for academic English in the sciences, and tours of laboratory facilities. (2 weeks)

University Culture & Immersion Program

Designed to welcome visiting students to US university life and culture, this program will offer seminars on certain academic subjects, English language enrichment lessons, and local activities and trips. (2 weeks)

University Preparation

For international high school students who are planning to apply to a university in the U.S., this program develops linguistic and cultural preparation, and helps in navigating application requirements. (1 week)

Innovation & Entrepreneurial Leadership

Introduces real-world applications of entrepreneurial skills. Students learn the tools relevant for start-up and early-stage entrepreneurs. Guest speakers and visits to local start-up firms also included. (2 weeks)

Create Your Own Program!

From academic preparation to professional immersion; from U.S. culture programs to corporate training, we're ready to listen to your group's needs and create a customized experience for the duration you desire.

◀ **Studious**
